Number 24

## Canada At War

Article Number Two

**"THE ARMY"**

By B. M. P.

**The Training Plan**

Brigadier Kenneth Stuart D. S. O., M.C., Vice Chief of the General staff who recently flew back from Britain after several weeks of conference and study with British and Canadian military men, there, told the editors that the Army Training Plan was devised to dovetail with British requirements. More over Canadian troops now in Britain were organized and equipped in accord with British practice. Canadian officers were constantly being brought back from Britain for instructional purposes and to head up new formations. He compared the general scheme of re-inforcement training in Canada with the widely-publicized Commonwealth Air Training Plan and declared that the training centres would provide training capacity for a maximum of nearly 50,000 men at any one time. This is apart altogether from the "formations" already in existence for overseas service. The system would absorb about 10,000 recruits per month, of whom perhaps 6,000 would be volunteers for active service anywhere and the remaining 4,000 would be secured under the N.R.M.A. plan of compulsory service for home defence. From the advanced centres were procured the reinforcements for overseas, while others would go to their own units for further training. Brigadier Stuart expressed himself as well satisfied with the type of recruits being secured under the system and likewise with the fact that a large percentage of young men brought into the basic training centres under the N.R.M.A. were volunteering for active service anywhere.

### Basic Training Centre

Canadian editors had a chance to see the plan in operation during the tour. At Brantford Basic Training Centre they saw recruits in the preliminary stages of their training. The lads remain there for two months and receive instruction in first aid, rifle and bayonet, squad drill, protection against gas, anti-aircraft rifle and light machine gun, firing on the range, fieldcraft and map-reading. There are 28 such centres across Canada. The Brantford Centre has about 1,000 recruits at one time. From such centres the recruits go to the Advanced Training Centre for their particular arm of service, such as infantry, artillery, engineers, armored corps, machine gun, army service corps, etc., where they are training intensively for two months in the use of arms and vehicles peculiar to their service. In the case of infantry, for instance, they are instructed in Bren gun, 8-inch mortar, Tommy gun, grenade, rifle, bayonet and revolver, protection against gas, driving of wheeled and tracked vehicles as well as in tactical exercises. There are 26 of these advanced training centres across Canada. The editor saw them in action at Camp Borden, Petawawa and Valcartier.

### Army Trades School

Meanwhile another vitally important role in moulding Canada's new army is being carried out at the Army Trades School in Hamilton, where soldier-students learn the trades

associated with mechanized equipment. An entirely new development of this war, this school is but one phase of the huge trades-training program aimed at providing skilled and semi-skilled tradesmen for the Canadian Army, which is now completely motorized and which has armored regiments and tank battalions as its striking weapons. For example, all students at the Army Trades Schools first attended one of the 99 Canadian Technical Schools. They were also first trained in the fundamentals of soldiering at a Basic Training Centre. At present there are about 1,300 students at the Hamilton school with an ultimate capacity of 2,000. Their periods of instruction range from three to five months, depending on the character of their trade. These lads will become artillery artificers, carpenters and joiners, electricians, engine artificers, motor vehicle fitters, instrument and wireless mechanics. These are only a few of the 150 types of tradesmen in the modern army. A large staff of instructors is required for the four main departments, which are: Automotive, Electrical, Machine and Fitting, and Carpentry. In addition there are facilities for draughting, blacksmithing, welding and sheet metal work.

### Officers' Training Centre

What about Junior Officers (subalterns) for the Canadian Army, of which it is estimated that nearly 6,000 will be required in the next year? They will be provided through Officers' Training Centres established at Brockville, Ont., and Victoria, B. C. If the course of training seen by the editors' party at Brockville is any criterion, the Army's new officers will be fit in every way to meet any possible emergency. The course is a strenuous one and pre-eminently demands a high standard of physical fitness. For the first month of the three months' course, the potential officers undergo training common to all arms, including squad and rifle drill, protection against gas, route marches, motorcycle riding and trench-digging. They then receive advanced instruction in their particular

(Continued on back page)

## NEWS NOTES

Geo. Brewerton is having a new garage for his car built on the lot just across the alley on the west of the Treasury Branch.

"The Shepherd of the Hills" promises everything in wholesome and instructive entertainment. This week-end at the Capitol.

Samples of 1941 Christmas Cards are now in, and for overseas mailing they should be sent right away. We can supply your needs at a price you want to pay, and we would suggest that you come in at once and see what we have. —The Recorder.

Dr. J. S. Madill was speaker at the Rotary Luncheon on Monday, when he told of some of the advances of medicine and surgery in the recent past, as brought out at the recent convention in Edmonton. The talk was very interesting to the 14 members present. The busy season kept a number of the members away.

## Sugar Factories Started Monday

Whistles on the Sugar Factories here and at Picture Butte blew at 8 a.m. Monday morning to signal the start of another campaign. The start was held up over the week-end because of a lack of beets, but by Monday morning, with the skies clear officials decided to start. There was a nice supply of beets in the sheds when the wheels commenced to turn.

This week while there has been some rain every day, beet harvest has continued steadily and beets are rolling steadily into the Factory sheds. The recent frosts, while light, have improved the sugar content of

beets considerably, and they are already testing 17.5 which is one and a half per cent over the tests when the Factory started last fall. Tonnages are good too, and while beets are not exceptionally large, the good stands which were obtained this year, are apparently making a very good average tonnage in this district at least.

The daily parade to and from work is on again and between 300 and 400 men will be busy for the next three or three and a half months turning the beets into sugar for the tables of Alberta and Saskatchewan.

## First Ward Mutual Dancing Party

The First Ward Mutual held its opening Tuesday evening and a large crowd was present to enjoy the program. The opening exercises were featured by the "Carry On" program and the promotion of a number of boys and girls from the Senior Primary grades to the Mutual.

After this exercise the crowd adjourned to the Recreation Hall and dancing was enjoyed until midnight, music being supplied by the Royal Albertans 8 piece band. A most enjoyable evening was had by all present which augurs well for the success of the Mutual work during the coming year.

L. J. Mehew was a business visitor to Lethbridge on Monday.

Gerald Watson, an air mechanic is home on leave and was a speaker in the 2nd Ward Sunday School last Sunday morning. Gerald says he is enjoying his work a great deal, and, naturally is glad to be home again for a few days.

## LET'S IMPROVE THE ROAD

Everyone likes good roads. There is an opportunity now for beet haulers to play the good Samaritan and smooth up our roads a little bit through out the district as they travel back and forth with their loads.

The dirt from the taring of the beets makes good road building material if it is placed in the right place. As the truckers return from the Factory beet sheds, it would be quite easy to shovel off this dirt in the low places and the small holes in the roads, and in a very few days good roads would result. There may be small piles of dirt in spots but if this were bladed down the holes would all be filled up and a good road would be the result.

We should not forget that nearly all the road money of the Municipality for this year has been used on the Raymond Craddock road and what road work is done elsewhere will be rather limited, so we could help in this if the above suggestions were followed out. It may save some truck driver a spring or a rer end gear if these holes were filled up, and the roads would be much better for everyone.

## Working On Skating Rink Addition

### ENLISTED BOYS ALL FINE

This week we have heard from a number of the local boys indirectly, who are in various units of military service:

Mrs. Sam Dyson in a letter from her husband, reports that Sam has been promoted to Commanding Sergeant-Major in the 6th Field Park Co., now in Ontario. In the same unit Smellie Redd has been promoted to Corporal and Roy Howard is a Lance-Sergeant.

Elmer Rusk reports that his two sons are in England and that they write once a week and both seem to be getting along fine as do the other Raymond boys whom they see occasionally.

Mrs. Ross Larson informed us that in a recent picture in the Montreal Standard was a picture of one of the Canadian units and in the group was Lynn Powelson, who is with the Calgary Highlanders and has been in England for a long while. He seemed to be alright.

Mrs. N. W. Peterson reported that her son Douglas is fine and in good health and is enjoying his introduction to England.

We like to hear from the boys and to know that they are still well and enjoying their training.

### SHEPHERD OF THE HILLS OPENS FRIDAY

Harold Bell Wright's greatest story now filmed in glorious Technicolor comes to the Capitol on Friday and Saturday with our Matinee on Saturday at 1:15.

Never has the screen depicted such grand entertainment and with the Technicolor Camera the beauties of nature has brought a vivid picture never to be forgotten.

Plan now and come early to see this magnificent picture.

The local Lions Club has as a project this fall, the enlarging of the skating rink, to half again its present size, and some of the work is already going ahead.

The fence across the north end has been removed, and the ground for the addition has been ploughed and levelled off, ready for the new fences to be put up, and then to be soaked up and frozen when the weather turns cold enough.

The plan is to make the sheet large enough that another fence can be put across the rink one-third of the way from the south to the north end, and then while boys have their hockey practice, and the larger ones enjoy general skating on the north end of the rink, the beginners can carry on on the south and without molestation or danger from the older ones. Heretofore when it has come time for hockey practice the kiddies have been herded home, and when the ice has filled up with larger boys and girls and adults for general skating the tots have again had the buzz put on them. The Lions hope that the additional ice surface will give sufficient room, that the little ones can stay on until 8 o'clock or so in the evening and enjoy themselves and learn to skate and not have to be chased off the ice quite so soon for the convenience of the other groups. We are sure everyone will appreciate this move.

Miss Katherine Paxman returned from Coutts, the end of the week. She has been there at work for the past month.

Tommy Roberts and his crew are busy on the new home of Mr. and Mrs. Lincoln Wood being built between the O. H. Snow and the S. B. Card home.

Mr. and Mrs. I. B. Roberts and Mr. and Mrs. O. H. Snow are in Salt Lake City to attend the semi-annual Conference of the L. D. S. Church now in session there.

## Second Ward M.I.A. Opening

The 2nd Ward Mutual Opening on Tuesday evening was attended by a large and enthusiastic crowd and a most enjoyable time was had by all. President Earl Zemp took charge and conducted the following program:

Saxophone Solo by Delbert Oler.

Vocal Solo by Mrs. Blanche Scoville.

Reading by Miss June Anderson.

Vocal Solo by Miss Edith Merrill.

Violin Solo by Miss Leda Jensen.

Pantomime of a Summer Camp, directed by Shirley King with Mr. and Mrs. Joe Strong, Miss Reva Garner and Bruce Heggie taking part.

Community singing under the direction of Delbert Oler.

Following this, the crowd enjoyed dancing until midnight to music supplied by the Card-going on a budget system, this stop Aces. As the Ward is was the first of the budget events and everyone had a fine time. Regular Mutual class work will start next Tuesday evening.

## Another Champion Of The Sky Is Born

Under the skilled hands of the workmen the fuselage of another British Spitfire takes shape.

British aircraft production has increased enormously despite air raids, and even greater output is on the way.

### WHAT DO YOU EXPECT FROM YOUR LOCAL NEWSPAPER

What do you expect from your newspaper, Well you expect more from your newspaper than you do from any other person or institution to which you pay the sum of \$2.00 a year.

You expect your newspaper to give you all the news for 52 weeks. That's why you pay \$2.00 for it, but,

You expect your newspaper to take the lead in advocating changes for the betterment of the community.

You expect your newspaper to expose graft in public affairs to forestall it by publishing itemized accounts of all public moneys spent.

You expect your newspaper to maintain a high standard of morality, supporting things that are right and condemning

things that are wrong.

You expect your newspaper to maintain a high standard of enterprise, devoting column after column to propaganda, supporting the band, the baseball team, community celebration, Boy Scouts, high school athletics, school programs, home talent plays and dozens of such causes and events.

You expect your paper to boost for good roads and protect your community's claim to its share of road improvements.

You expect your newspaper to build up confidence in your home financial institutions and protect home investors from making unwise investments of surplus funds, warning against take salesmen and other financial pirates.

You expect your newspaper to combat the peddler nuisance.

You expect your newspaper to establish friendly contact with the rural readers so as to induce them to make your town their town.

You expect your newspaper to give notice of all public meetings, public observances, conventions, etc.

You expect your newspaper to urge support of poor relief benefits, library drives, Red Cross drives, Christmas Seal drives, Legion and Auxiliary drives, poppy sales, forget-me-

not sales, have a heart drives etc.

You expect your newspaper to publish church notices, church programs, club news, farm bureau information, demonstration unit news, market news, weather news, bring you the market reports and cover all doings of the many semi-public organizations.

You expect your newspaper to support every meritorious organization effort for the town's good.

And you expect all this for \$2.00 a year.

No, it can't be done for that. The money you, as a subscriber pay for this paper covers less than one-fourth the cost of publishing the paper. The other 3 quarters must be paid by advertisers.

Since the advertisers pay a large share of the expense of publishing your newspaper, don't you think you owe them the duty to patronize them whenever they offer you equal or better values than non-advertisers?

And you Mr. Advertiser don't you think that in view of the many services which the newspaper performs, for which the newspaper derives no compensation, but which means more business and more profits to you, the newspaper deserves

## U. G. G. President Issues Statement on Wheat Policy

WINNIPEG, SEPT. 26—R.S. Law, president of United Grain Growers Limited, last week issued a statement on behalf of the board of directors of that company advocating payment on an acreage basis to western farmers, comparable to the cost of living bonus, to compensate farmers for increased costs prevailing this year and to remedy the deficiency in western farm income. The statement is as follows:

"It is becoming more evident every day that western wheat income is inadequate for the satisfactory maintenance of agricultural production in western Canada. The situation calls for full government review at the earliest possible moment to bring about an adjustment in this matter. Western farmers are suffering not only from reduced production caused by adverse weather conditions and by their compliance with the government for wheat acreage reduction; they are also suffering from increased costs of living and operation due to the rise of prices in Canada. Adjustment of income is required for exactly the same reasons which have brought about cost of living bonuses in industry and in the civil service, and is more urgently required because farmers have to provide not only for cost of living but also for cost of operation.

"There are several possible methods of making such an adjustment. One would be a considerable increase in the basis of initial payments for wheat by the Canadian Wheat Board. The board of directors of United Grain Growers Limited advocated such an increase as far back as last January. It now feels it necessary however, because of subsequent developments, to put forward a suggestion for an alternative basis. One reason is that the government has now twice refused to make such an increase. Another is that owing to new factors which have entered the situation an increase in Wheat Board payments would only partially meet the present problem. If granted, to make it reasonably satisfactory, it would be necessary to supplement it by direct payments in respect to a large volume of wheat which cannot or will not be delivered to the Canadian Wheat Board this year, but which farmers will dispose of otherwise, by sale on the open market, by feeding on their own farms or by sale to neighbors for feeding purposes. To farmers so disposing of their wheat, or to those who have had less than average yields, an increase in Wheat Board payments unless otherwise supplemented would either be a minor or an inadequate benefit.

"Nevertheless, it is clear that it is in respect to wheat that farm income needs to be adjusted, for wheat is the one important commodity in Canada which is still selling on a basis of distressed prices. It is the wheat farmer on whose behalf adjustment is most urgently required, and those farmers who have also other lines of production require adjustment in respect to their wheat operations.

"For such reasons the board of directors of United Grain Growers Limited advocates that there should be paid to each wheat farmer a bonus on his wheat acreage. It should be applied not on the acreage actually seeded to wheat in 1941, but on what is known as his basic wheat acreage. That is

the acreage established by the Canadian Wheat Board for each individual farmer in order to regulate quota deliveries of wheat this year. It is with minor exceptions 65 per cent of the acreage seeded to wheat in 1940. The total of basic wheat acreages established by the Canadian Wheat Board is probably in the neighborhood of eighteen and one-half million acres. A payment of \$3.00 per basic acre would amount to \$55,500,000. Any calculation of western farm income will show that for the current crop year it falls short by at least that amount of enough to provide adequately for agricultural maintenance. That such an estimate is moderate may be seen by noting that if western farmers and farm workers were to receive a cost of living bonus only on the same basis as is being widely applied to industrial and civil service workers, it would amount to some \$43,000,000 or more, and that their need for an adjustment, which ought to cover production as well as living costs is greater than that of wage earners.

"A few of the comparative advantages of such a plan may be mentioned. It would be unnecessary for the Dominion Government to reverse decisions it has already made. It would be in conformity with the acreage payments already provided for in connection with the wheat acreage reduction plan and the assumption in that plan of government responsibility for supplementing farmers' limited income from wheat. It would not interfere with feeding of wheat to livestock. It corresponds in principle to the cost of living bonus given to wage earners. Its benefits are equitably distributed with no discrimination against the farmer whose yields this year were low. It would not require to be applied immediately to be effective, but necessary time could be taken by the government of Canada to study the problem, and possibly to bring the plan before Parliament.

"In reviewing the situation the government may properly take into account the fact that as a result of government policies in both countries much higher prices now prevail for wheat in the United States than are available to Canadian farmers. Prices there are quite on a parity with farmers' costs, a state of affairs very different to what prevails in western Canada. The contrast in conditions north and south of the international border and the natural discontent which such a contrast creates provide one more reason for asking government reconsideration of the plight of the western Canadian wheat farmer.

"In putting forward this plan the company is showing no lack of sympathy with those who continue to support the plan which it earlier advocated, that of increasing wheat board initial payments. Their efforts are based on the same facts as the efforts of this company, the need of more farm income in western Canada, and the need of government intervention in the situation. To recognize such need is in line with the war effort of Canada, which for maximum effectiveness requires that agriculture be kept functioning not only to strengthen the Canadian economy but also to insure the maximum production of food for supplying Great Britain.

## YOUR AFFAIRS ARE KEPT Private

When you become a customer of the Bank, a private relationship is at once established and you can be perfectly sure that your business with the Bank will be held in strictest confidence.

Your bank balance may be small or large, but no one will know what it is—unless you tell.

You may borrow at the Bank and no one will be the wiser—unless you reveal it.

You may place securities with the Bank for safekeeping and no one else will know—unless you tell them.

No one is privileged to intrude upon this confidential relationship of the Bank and its customers—a relationship which compares with that between doctor and patient.

## South African Royal Naval Volunteer Reserve Among Union Defence Forces

For some years South Africa has included a Division of the Royal Naval Volunteer Reserve among the Defence Forces of the Union.

During the Great War, officers and men served with the Grand Fleet, belonging to the South African Royal Naval Reserve. In peace time members

of the S.A.R.N.V.R. serve under the orders of Commander-in-Chief at Simonstown and carry out their annual training in sea going ships. Gas drill is carried out on board in conjunction with pom-pom practice. The gun's crew is seen wearing gas masks.

### COST OF LIVING BONUS TO LINE ELEVATORS LAY CASE WHEAT FARMERS URGED BEFORE DOMINION GOVERNMENT

Additional government assistance to wheat farmers in the form of a cost of living bonus on 1941 wheat acreage, or by way of grants to families of wheat farmers, is urged in a telegram forwarded to Hon. J. G. Gardiner, Federal Minister of Agriculture, by The North-West Line Elevators Association.

### LONG SERVICE

For thirty-five years this Farmers' Company has been at work for western agriculture. Its customers have benefitted directly in the satisfaction they have found in marketing their grain or in buying farm supplies. All western farmers have benefitted from improved business standards set by the Organized Farmers in business. And western agriculture as a whole has also been served as this Company, by itself sometimes and often with other organizations, has represented it before governments and governmental bodies, and before the public.

essential to provide the necessities of life. With the cost of living index now at 113.7 and steadily raising the present initial payment of the Canadian Wheat Board together with Government assistance under the acreage bonus plan and the Prairie Farm Assistance Act is inadequate to meet the ordinary needs of wheat farmers and their families. The Government has recognized the need for monetary relief for industrial workers by establishing the cost of living bonus.

"Our Association respectfully urges that the Dominion Government immediately review the position of the wheat farmer with a view to giving assistance by way of a grant to each family or through a cost of living bonus based on wheat acreage sown in nineteen forty-one. Much land on the prairies is suitable only for the growing of wheat, and farmers on this land are unable to receive any benefit from government policies in encouragement of production of livestock and coarse grains. In the opinion of our Association raising of the price to be paid by the Wheat Board alone would not meet the situation. There are thousands of farm families who would benefit under such a plan as they will have little or no wheat to market."

"The wire reads: 'Hon. J. G. Gardiner, Minister of Agriculture, Ottawa, Ontario, 'Due to partial crop failure over large areas of Western Canada and total failure over other areas along with advancing cost of living, wheat farmers are receiving less than is'."

"With living costs steadily mounting we would urge immediate consideration of financial assistance for the wheat grower. Your Government is fully aware of the fact that the wheat farmer is of equal importance to the factory worker in the Empire's fight for existence."

### "THE NORTH-WEST LINE ELEVATORS ASSOCIATION"

### CALL FOR GREATER ROAD SURFACING

Alberta has 3,000 miles of main gravelled highways and more than 600 miles of "blottered" or bituminous surfaced roads, forming part of 90,000 miles of roads in this province. Some interesting fact regarding the statistical position of the road situation were made known recently by the provincial government.

These show, in the opinion of officials of the Alberta Motor Association, the need for greater development of hard surfacing in this province. Only by such expansion will the tourists be encouraged to visit this province in larger numbers.

On the reconstruction of the main No. 1 highway from Edmonton to Calgary and Medicine Hat, the province has spent in recent years a total of more than \$3,600,000. Level crossings between Edmonton and Calgary have been eliminated.

Motorists who are paying millions of dollars into the provincial coffers each year, much more than what is being spent on the highways, now are making an insistent call for this situation to be remedied. They

demand that these motor revenues be earmarked for roads, as it is realized that Alberta needs a greater mileage of hard surfaced highways, and surfacing of this type should be of a type that will stand up without necessity of maintenance from year to year.

### NEWS NOTES

Work is progressing nicely on the Bowling Alley and Lee hopes to get going again possibly the end of this week.

Sunday morning for the first time in six weeks or more, the children were at Sunday School. Despite the added noise they brought with them it really seemed like home to have them present again.

Elders Ernest Jensen and J. O. A. Stevenson were speakers at the 2nd Ward on Sunday evening and Mrs. J. H. Walker gave a retold story. A promotion exercise from the Primary of a number of boys and girls also took part of the time.

## "Jim's letter was censored" ...

● Things are happening where Jim is . . . in the navy . . . things Jim is not allowed to write about. If Jim could write what he would like to write, we at home might be more concerned about the war. Jim says "everything's O.K." and that's what we expect from fellows like Jim . . . but things aren't O.K. or Jim would be back home at his regular job. We've got to do our part, too. One thing we can do is lend our money to pay for the war. We've got to see to it that the men in

the services get the ships and guns and tanks and planes they need to do their job. War Savings Certificates help to provide that money. We must all buy more War Savings Certificates.

The help of every Canadian is needed for Victory. In these days of war the thoughtless, selfish spender is a traitor to our war effort. A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.

### SUPPORT THE WAR WEAPONS DRIVE IN YOUR COMMUNITY

COMPANY LIMITED

"Where You Get More of the Best for Less"

## Let's Go 50 50 and Save Gas

The Drumheller Valley hopes to sell enough War Savings Certificates every month to buy one Bren carrier each month. With a quota of \$3,680.00 per month, and nearly always above the quota, the Dominion Government has stated that the money from Drumheller will go to the purchase of a carrier monthly. How is our quota keeping up? Mr. Canadian it's up to you and me.

Mr. and Mrs. Wayne Matkin of the Magrath 2nd Ward furnished the program in the Raymond 1st Ward Sunday evening, both of them speaking and Mrs. Matkin playing a piano solo and Wayne contributing a vocal solo.

## NEWS NOTES

**Aluminum Drive Coming Up.** Watch for particulars.

Syd Romeril is home for a few days leave.

"V" for Victory. Fly it where everyone can see it.

The 2nd Ward Seventies started digging their beets Monday. There were a number of sore backs and arms Tuesday amongst those of the group, unaccustomed to this type of work.

A disastrous fire in Calgary Wednesday night gutted the interior of the new Wales Hotel and four stores housed in nearby buildings. It was the first big fire in Calgary in a number of years.

The Primary work started again last Tuesday after the lifting of the ban. The kiddies of the 2nd Ward were treated to Ice Cream and Pop Corn balls to start the new season off right.

The coroner's jury reporting after the hearing Monday into the death of Donald McMullin who was accidentally killed at the Sugar Factory last week, did not attach blame to anyone but recommended that older and more experienced men be employed for these tasks where danger was involved.

## Canada At War

It is a strict rule now, a lesson from the last war, that officers must come up from the ranks. Candidates for commissions must have served either four months in an Active formation or for one year with a Reserve unit. They may then be recommended to go to Brockville by their Commanding Officer. About 1,200 men are now in training at Brockville, with one third of that number being graduated each month.

## Study the Keypoint

Such is the gigantic training scheme for Canada's new army, now in full operation cross the far-flung Dominion. We have described only what we found in Eastern Canada. Its counterpart will be found in the West as well. There is no gainsaying the fact that the complicated arms and machines of modern war require close application and concentrated study. The old days of constant squad and rifle drill and route marches are gone. During our whole tour we saw only one band. There is little time for music in this war. It is study, study, study, day and night. Canada's army is being whipped into shape by long, hard hours of grinding on the part of instructors and pupils.

Naturally it tends to become monotonous and grousing is inevitable, but in the course of many talks with both officers and men, we heard few serious complaints other than the expression of a general desire to be on the way overseas. Month after month at Borden, Petawawa and Lebert tend to become tiresome, to put it mildly. It was the same at Valcartier where the French-Canadians were chafing at inaction and anxious to be on their way. They realize, however, that their hour will come and when it does, they will be thoroughly trained and supremely prepared to strike and strike hard. As Canada's army training plan swings into high gear, we may look forward confidently to possessing a powerful machine that will gloriously uphold the traditions of 1914-18.

Next week's article will deal with "The Munitions Industry."

Lawrence Betts is home on leave and looks fine. We haven't had a chance to say hello, yet but we are glad to see him home again for a few days.

By setting the Yankees down 3-2 on Thursday the Brooklyn Dodgers evened the count and the teams meet today in the third game even. There are two great teams in this series, and if we were betting we would want about even money on both teams so we would be sure and win.

Candidate for the strangest contribution to the National Salvage campaign is an ancient hearse. It was pulled out of retirement by a "six horse team" of Boy Scouts, and created something of a street sensation. Demonstrating Scout ingenuity, two of its wheels are again rolling usefully, and presumably much more happily, beneath a Scout salvage-collecting treckart.

Thorny Crop Little Willie had gone to bring the kittens in. His father, hearing a shrill meowing, called out: "Don't hurt the kittens, Willie!" "Oh, no, said Willie, "I'm carrying them very carefully by the stems!" Royal Arcanum Bulletin.

## TWO GENERATIONS

WHAT'S DE ANSAH?

An old darky approached the minister. "Pahson, suh," he said "Ah wants you all to pray for me."

"All right," Rastus. What's wrong?"

"Suh, Ah's got a floating kidney, suh."

"But, Rastus," replied the minister, "I can't pray for phy-

Why, daughter, when I was a girl we never thought of doing any of the things you girls do today!

Which was why you didn't do 'em, mumsie, old top.

### HERE'S A LOW COST PLAN TO... help your studies!

**A New Valuable TOOL IN EDUCATION**

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic two years series of tests they have proven that most children improve grades as much as 14% when using a portable typewriter.

An unexpected outcome was that, in addition to betterment in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for shy students!

You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get! Only a small deposit, and terms as low as 10c a day, will bring you the Remette Portable, other models a trifle higher. Read what prominent educators say about student use of typewriters. Send for Free Booklet.

**Remington REMETTE PORTABLE**

Lowest priced complete standard portable in Canada. Full standard keyboard, shift keys, shift lock, back spacer, margin stops. Extra strong geared type action, nothing that can get out of order. Full mechanical guarantee. You'll be thrilled when you see how easy it is to type with the Remette Portable.

**FREE! 32-PAGE TOUCH METHOD INSTRUCTION BOOK**

with any Remington Portable you buy. It contains lessons, exercises, charts and illustrations to help teach you typing by the touch method.

**SPECIAL CARRYING CASE**

Included in the purchase price of your Remington Portable is a smartly designed Carrying Case.

**SEND COUPON NOW**

**Remington Rand Limited**
